Principles

Each MEL college is responsible for setting and managing its own fees, levies, concessions and remissions and for its own fee and levy collection and debtor management.

In recognition of the different capacity of families to contribute to the costs of education, government uses a Schooling Resource Standard funding model combined with a Capacity to Contribute model which is intended to account for the financial position of families. These are designed to fund the system according to need.

The CECV policy formula for allocating funding to Catholic colleges also accounts for need. In addition, colleges are provided with additional financial assistance for each HCC student, which enables them to offer fee remissions.

Setting and Varying Colleges Fees and Levies

1. College fees and levies should be reviewed and set annually in line with the college's budget cycle, in sufficient time to advise college families of the following year's fees and levies
2. When setting college fees and levies, colleges should consider recurrent fees and levies to assist in meeting the operating expenses of the college, capital fees to assist in the purchase of assets and/or repayment of loans for capital purposes and fee discounts for families with more than one child enrolled at the college.
3. Where the college accepts enrolment of FFPOS, separate fees and levies should be set for FFPOS at a minimum of local student fees, plus Australian and State government funding amounts and other overhead costs relating to FFPOS,
4. Approval of setting or varying fees and levies by the appropriate delegates should be retained in writing.
5. Once set for the college year, college fees and levies may be varied on an 'as required' basis.
6. Varying college fees and levies should occur only in exceptional circumstances.
7. The College Advisory Council should be informed when fees and/or levies are set or varied.

Billing Fees, Levies and Fee Concessions/Remissions

1. The Principal is the approved delegate for approval of fee concessions or remissions. Approval must be documented in writing.
2. Fee and levy billing and application of fee concessions/remissions should be processed wholly within the college's accounting system, in accordance with the college's billing cycle.
3. Where authorised by the Principal, fee concessions/remissions may also be applied subsequent to billing.
4. Fees and levies should be billed in full for all students, with any fee concessions or remissions applied to the full fee or levy charged.
5. Fees, levies, concessions and remissions should be reconciled at each billing cycle to ensure completeness of billing.
6. Discrepancies in completeness of billing and/or resultant expected income should be promptly investigated and addressed.
7. Colleges should reconcile their debtor's ledger to the general ledger debtor's account on a monthly basis and promptly investigate and address any discrepancies, in accordance with the MACS Financial Reporting and Controls Policy.
8. Evidence of reviewed and approved monthly debtor, fee and levy reconciliations should be maintained for perusal by external auditors and other authorised organisations.

Ad Hoc Charges

1. If the college deems a camp, excursion, activity or other item is optional and it is not part of the standard curriculum program, families will need to pay the camp, excursion, activity or other item cost if their child is to participate.
2. Colleges may charge families for all costs of an optional camp, excursion or activity including the cost of transport, food, entry fees and accommodation for their child and any teacher(s) attending the optional camp, excursion or activity.
3. Colleges may also charge for the cost of a Casual Relief Teacher who is engaged for the purpose of supporting the optional camp, excursion or activity, however, colleges cannot charge families for the salaries of college teaching staff attending the optional camp, excursion or activity.
4. Where the charge is for an item, colleges may charge families for the purchase price of the item including the cost of any delivery or associated fees.

5. Ad hoc charges may be charged through the issue of a separate invoice for payment before the event takes place or the item is provided, or added to the family's account for payment with the next tuition fee instalment, at the Principal's and/or Business Manager's discretion.
6. Where colleges elect to add ad hoc charges "on account" for payment with the next tuition fee instalment, the risk of non - payment after the optional ad hoc camp, excursion, activity or other item has taken place/been provided needs to be assessed and considered as part of the invoicing decision making process.
